WireFraming

SIGN IN

A wireframe diagram of a sign-in page. The page is enclosed in a large rectangular border. At the top left, there is a rectangular box labeled "LOGO". To its right is a wider rectangular box labeled "QCFIRST". Below these two boxes is a large, light-gray rectangular area that serves as a container for the sign-in form. Inside this container, the text "Username" is positioned above a horizontal input field. Below the input field, the text "Password" is positioned above another horizontal input field. Underneath the password field is a rounded rectangular button labeled "Log in". Below the entire light-gray container, centered horizontally, is another rounded rectangular button labeled "New User". Two horizontal dashed lines extend from the left and right sides of the "New User" button across the page.
